

FRUIT

Zebra lemon

A lemon variegated with green and yellow stripes, highly decorative and frankly acidic.

The zebra lemon stands out with its skin marbled with green and yellow stripes, which creates an immediate visual effect on a platter or in a cocktail. Its flesh is juicy and sharply acidic, like that of a standard lemon. Its zest is fragrant. It is used wherever appearance matters as much as taste.

FLAVOUR

Sharply tart, fragrant zest

Seasons and origins
