

EDIBLE FLOWERS

Alyssum flower

Tiny flower clusters with a delicate honey fragrance.

Alyssum forms small clusters of tiny flowers, white or in shades of mauve. They give off a light honey fragrance and a mild flavour, barely seasoned. Their fineness allows you to scatter them precisely over a plate, on desserts as on starters.

FLAVOUR
Mild, honeyed, slightly spiced

ORIGINS
Spain, France

BOTANICAL NAME
Lobularia maritima
