

EDIBLE FLOWERS

Bunched lavender

Flowering stems with blue-violet spikes, with a clean, characteristic fragrance.

Bunched lavender: flowering stems bearing well-formed spikes of a uniform blue-violet, with buds mostly closed or just starting to open. Tied in bunches and kept chilled, away from light, it keeps its clean fragrance. For culinary use, please say so when ordering: we will steer you towards a suitable lavender.

Seasons and origins

Available occasionally (June, November to March) in small quantities: to order, depending on arrivals.

Pack sizes

- **Bunch × 10**

In the kitchen

- Table decoration and floral creations
- Fragrant bouquets and arrangements

Technical sheet — Bunched lavender

Part sold	Flowering stems: flower spikes borne on an unbranched stem
Appearance	Well-formed spikes, uniform blue-violet, buds mostly closed or just starting to open; stems rigid and straight, with no breakage or yellowing
Smell	Clean, characteristic fragrance, with no smell of fermentation or mustiness
Condition	No mould, heating, live pests or traces of insects
Foreign matter	No soil, foreign leaves, plant debris or packaging elements
Storage advice	Chilled, away from direct light and strong-smelling products
Transport	Refrigerated truck, bunches wedged in place without crushing the spikes

Indicative information based on our technical sheets and our growers' sheets; it may vary with origin and season. Up-to-date sheet on request: qualite@moorea.fr.
