

FRUIT

Guava

A tropical fruit with a powerful aroma, with pink or white flesh and edible seeds.

The guava is a rounded fruit with yellow-green skin that turns more yellow as it ripens. Its flesh, pink or white depending on the variety, is tender, juicy and fragrant, with small edible seeds. Its sweet-and-tangy taste recalls strawberry, pear and muscat. It is eaten raw or made into jam, jelly or drinks.

FLAVOUR

Fragrant, sweet-tangy, strawberry and pear
