# Granadilla

**An orange shell containing a sweet pulp, to be eaten with a spoon.**

The sweet granadilla, cousin of the passion fruit, comes in a smooth, orange shell, light and brittle. It holds seeds coated in a translucent, gelatinous pulp, sweet and fragrant, far less acidic than that of passion fruit. It is simply enjoyed with a spoon and adds an original touch to desserts and cocktails.

FLAVOUR
**mild, fragrant, low in acidity**

ORIGIN
**France**
