

FRUIT

Yellow melon

A melon with golden skin, crunchy white flesh and a delicate aroma.

The yellow melon is recognisable by its smooth, bright yellow skin and its cream-white flesh, firm and very juicy. Its sweet flavour, milder and less musky than that of netted-skin melons, appeals to all audiences. It keeps well and slices cleanly, making it a practical fruit for foodservice and catering. Best eaten fully ripe, when the stalk gives slightly.

FLAVOUR

Sweet, mild, very juicy
