

EXOTICS & ASIAN FLAVOURS

Kumquat

A small citrus eaten whole, sweet skin and tangy flesh.

Kumquat is a small oval citrus fruit of bright orange colour. It is eaten whole, with the skin: the skin is sweet and fragrant, while the flesh is tangy. This contrast makes it a very interesting fruit in the kitchen, candied, poached, in chutney, or raw in thin slices in a salad.

FLAVOUR
Sweet skin, tangy flesh

ORIGINS
Spain, South Africa, Morocco
